

SOLO HANGING SYSTEMS

# PICTURE MOUSE SOLO

Picture Mouse Solo is a handy and original hanging cord for hanging several documents at the same time, such as displaying cards, for example. It is a hanging system that makes practical use of the walls in a room. Thanks to the transparent Picture Clips, it is easy to attach photos, cards and other documents to the steel cord. Magnets work with the Picture Mouse cord, as an alternative to the clips. The Picture Mouse Solo is also a practical alternative to a picture frame hung on the wall since you can display several photos one under the other.

### On the wall or in combination with a hanging rail

The Picture Mouse Solo system is easy to install. Attach the round button to the wall, and then just hang the steel Picture Mouse cord from the button. The Picture Mouse hanging wire may also be used with all our picture hanging systems.
